

BRIG. G. R. PEARKE'S
WELL SATISFIED
BATTERY DISPLAY

Approximately 250 spectators were present at the annual inspection of the 22nd Field Battery last Wednesday evening.

Brigadier G. R. Pearke, V.C., D.S.O., M.C., district officer commanding and Major R. A. Young, general staff officer of Military District No. 18, accompanied by Col. D. G. R. L. Connington, M.C., V.D., and Capt. G. S. Franks, M.C., inspected the five officers and 45 other ranks on parade.

The unit was lined up in two ranks when Brigadier Pearke took the salute while the General Salute was sounded by Trumpeter E. G. Evans. Following this the members of the unit were inspected and after the three different methods; telephone, flag and daylight lamp.

At the gun position the crew was put on action as quickly as possible and action on orders received from the observation post.

When this demonstration was completed the Battery was addressed by the Brigadier who expressed great pleasure at seeing such a good turnout and complimented everyone on the efficiency and enthusiasm displayed. He stated he was very glad to see the unit up to full strength.

After the inspection of the armory a lunch was served for the military officers and invited guests being members of the Canadian Legion.

Two former members of the 22nd Battery, Major W. H. Taylor, now in command of the 109th Battery at Trail and Sergeant-Major W. Bogie of the 108th Battery at Kimberley, were present at the inspection.

THE WORLD OF
WHEAT

BY H. G. L. STANICE
Director, Research Department
Searle Grain Company, Limited

"The agricultural scientist has helped farmers to make two blades of grain grow where only one grew before, and has assisted in many ways to increase farm production, but what does the agricultural scientist intend to do in helping farmers to produce more wheat than they can sell?"

This was part of the address of welcome by Mayor Telford, of Vancouver to the recent conventions of the Canadian Seed Growers' Association and of the Canadian Society of Technical Agriculturists.

One part of the answer given by His Honor the Mayor was that because increasing production the scientist had also greatly increased quality and that it was this superior quality contained in Canadian grains and in alfalfa, grass, field root and garden vegetables seeds that was enabling these stocks to be sold in foreign countries in such large quantities that could be done had the extra quality not been present.

The scientist admitted, however, that in spite of the quality there are still unsold surpluses, and that, therefore, something else is needed too. What this something else was explained by the agricultural economists, and that important matter will be discussed in a forthcoming article.

Following factors have tended to raise price: Official confirmation of crop deterioration in Russian, Trans Volga regions. Reports of unfavorable harvesting weather in U.S. southwest. U.S. department of agriculture predicts a sizable reduction in southern hemisphere crops. Egypt reduces customs duties on foreign wheat. Indications of a Spanish wheat crop below requirements.

Following factors have tended to lower price: Indian monsoon activity and prospects for autumn sowings favorable. Condition of newly seeded wheat in Australia and Argentina improving. Fluctuating German rye prospects good; wheat condition average.

News Items of
Local Interests

Both the Meadowbrook and 22nd Field Battery clubs will take part in the 22nd Battery tournament held today.

G. T. Jones grandson, Bobby Jones of Calgary won a scholarship in French and has left for Garsia where he will continue his studies.

E. Parkin of Vancouver was in town for a short time last week. Mr. Parkin was looking after his property interests here.

Nurse Kitchin formerly a resident of Gleichen but now living in Calgary, has been visiting Mrs. S. G. Baskin.

The Meadowbrook softball club took part in the softball tournament held at Brant on July 1st. They lost out to Vulcan by 4-0 score.

Miss Betty Taylor of Calgary arrived in town Monday to spend the next three weeks holidaying with her parents Mr. and Mrs. E. W. Taylor.

The Teachers' Alliance held a meeting here Monday morning, but the legal lights of the meeting had to be put off as no one was present.

Wm. MacCallum has completed two courses in the mechanical engineering at the Institute of Technology and Art and has been awarded the diploma.

The United Church Sunday School held their annual picnic last week at the home of Mr. J. Boyd's. All kinds of sports were held for the children. Wet weather had caused postponement of the picnic from the week before.

C. Long of Calgary while enroute to Edmonton home here died on board his train. He was 71 years of age.

The funeral took place Saturday afternoon with Major J. Sutherland officiating. Interment was made in Eventide cemetery.

Dates of two provincial constituency conventions were decided in the Calgary area last week. Executive of the Banff-Cochrane constituency Unit Association decided from August 12 as the date of the meeting.

BATTERY LOSES OUT
IN PLAYOFF

Last Sunday the 22nd Battery softball club were eliminated from the intermediate soft ball playoff by the A.B.C. Battery club from Calgary. The Calgary nine took the series two to one.

The first game of the series was played on the corner of 7th and 10th. In the first game Cy Davis, ace pitcher of the Calgary club struck out 17 batsmen.

The batteries were: first game: R. Leste; and Quimil for Gleichen; Cy Davis and Wuyak. Second game: Gleichen, Ross and O. Bremner; Hodge and Wuyak.

Referee: Nelson and Clifford.

MEADOWBROOK AND
BATTERY STILL
TIE FOR FIRST PLACE

The Battery and Meadowbrook softball club still continue to place local softball league. Both clubs have lost but one game. The Gleichen and Namaka clubs are still tied for second place with U.F.A. in the cellar.

The standing up to July 3rd is:

P W L Pt
Battery 6 5 1 12
Meadowbrook 6 5 1 12
Gleichen 5 2 3 4
Namaka 3 1 2 4
U.F.A. 2 0 6 0

Note: 4 points are given for games won.

The following is the schedule for net two weeks:

July 6—Meadowbrook at U.F.A.
July 7—Battery at Gleichen.
July 8—Namaka at Meadowbrook and U.F.A. at Battery.

July 11—Battery at Namaka.
July 12—U.F.A. at Gleichen.
July 14—Battery at U.F.A. and Namaka at Gleichen.

corn in Europe. Russia again reported offering wheat, and makes sales to the United States.

wheat condition average.

THE WEEK IN
EDMONTON

(By Special Correspondent)

Edmonton, capital city of Alberta is looking forward to the first hundred thousand, but the famed hundred thousand of 1914, but possibly of 1940 to 1945, when the population of the city climbs to that number. This year's census shows a new record—90,419.

Announcement in London that two prominent Britons are on the way to Alberta to investigate the possibilities of a pipe line from the Turner Valley come out on the heels of another report which said the possibility of a commercial-military enterprise providing a pipe line had been known to Winnipeg financial men for months. It was added that the dominion cabinet had been in conference with a prominent oil company, and that a secret report will be being prepared by a Winnipeg printing firm.

Last year the youth training projects were divided into six classes. Class "A" for re-establishment of rural youth and girls was carried out at 25 provincial centres with total enrollment of 3,523. Class "B" enrolled 60 young farmers. Class "C" trained 120 home assistants, of whom 75 have already obtained work. Class "D" provided trade and industrial training for 1,051 boys of whom 33 were placed. Class "E" provided specialized farm training to 99 young agrarians. Class "F" enrolled 1,260 young men and women in the health and recreational course. These were divided into 99 groups in 35 communities, and it is expected that the number will be increased this year.

This year an additional class will be established. In it, at least 35 fortunate enrollees will obtain training in agriculture.

Provincial debt was cut by \$5,700,000, when the payment of that amount was made by the C.N. and C.P. railways on account of the N.A.R. purchase was received by the Imperial Bank. This, the last payment, was hypothecated to the bank by the former administration as security against bank loans to the province.

It is noteworthy that for the first time streams outside the parks the provincial government has the most modern equipment in the Dominion.

Employees of the Alberta government who draw whole or part salaries contributed by the Dominion will not receive treasury vouchers, but rather civil servants up to 25 per cent of their salaries. Purpose of the new move is to make the government from Dominion taking exception to any grants being paid out in Alberta to credit.

Alberta's Maternal Welfare Act, which provides for cash allowances to needy mothers, is now operative, according to Health Minister Dr. W. W. Cross. It is expected that between \$60,000 and \$70,000 will be distributed this year under the new measure.

Grants are intended primarily to supply necessary food to infants during their first months of life. Applications should be made after the birth of the child, to the local registrar of vital statistics.

Following the radio address by Hon. W. D. Herridge, social credit member of the federal parliament, attended a caucus in the city Thursday to discuss the former Canadian ministers program. The members have been in caucus for several days, but at the time of writing have not indicated what stand they will take in regard to the New Democracy proposals.

Good progress in the provincial government's plan to establish a department of agriculture. Although operating only one month, over forty boys have already been ordered by boy leaders who wish to improve their herds. It is anticipated that by fall the number distributed will reach several hundred.

The movement for live stock improvement is also gaining pace with the horse and cattle classes. For the first six months of this year the distribution of bulls and stallions has been highly encouraging.

Frank Woods of Duxbury will spend the next two or three weeks in town looking after N. T. Purcell, store. Mr. Purcell is taking a holiday.

Whether this statement be true or not, its propagation has done an incalculable amount of harm. It has been a false standard.

The fallacious inference has been drawn that to make the most of life we ought to sleep as little as possible. It is considered clever to be able to sit up late and rise early. We pretend to scoff at sleep as a wasteful thing. "Sleepy-head" is one of the bitterest forms of reproach.

We forget Boswell's accounts of the inimitable Dr. Johnson lying about till three in the afternoon. We forget that the Great Darwin, for all his marvelous work he did in his lifetime, could not work more than two or three hours a day.

Sleep is more than the mere "assumption of bodily activity" that the older scientists used to call it. A continual process of reconstruction goes on all through the body while we sleep. It is only then that food is taken in the daytime goes through the later stages of transformation into bodily tissue, repairing the ravages of yesterday and preparing for the labors of tomorrow.

The nearest we can come to a genuine sleep is sleep until you feel refreshed.

SAFE AS CANADA

In a World of uncertainties, Life Insurance stands out as a solid rock of security—giving priceless protection to millions of Canadian men, women and children.

Life Insurance reflects the safety and stability of Canada itself. Assets of more than Two Billions of Dollars—owned by the policyholders—are invested in Dominion and Provincial and Municipal securities; in industries and utilities; in our homes, farms and schools.

Throughout troublous times of wars, epidemics and depressions, Life Insurance has kept faith with the people. It has provided many families with food, clothing, shelter and other necessities of life, and assured men and women financial security in their old age.

Town & District

Mrs. Rebecca Hembroff of Souris, N. D., is holidaying with her daughter, Mrs. N. A. Riddell.

Mrs. Mrs. Charles Leigh of Delta are guests at the home of their daughter Mrs. Lynn.

Mr. and Mrs. D. H. Caprell of Delta spent the week and holidaying in town visiting relatives.

R. M. Strabuck of Calgary is spending a week's holiday in town visiting his sister Mrs. G. W. Evans.

Young Albertans to the number of 15,000 are expected to enroll in the 1939 youth training projects to be carried out this year. The projects are the result of a joint agreement between province and dominion. Cost to each government is estimated at \$100,000, an increase over last year's costs of \$100,000 to each government. In addition, the province is expected to make available another \$50,000 for forestry training, and the Dominion will likely match this amount.

C. Ledda who had been living at Eventide home for the past six months died early Sunday morning at the age of 59 years. Deceased was born in Italy and had lived in Alberta for the past 27 years. He came to Gleichen from East Couder where he worked as a miner. Burial took place in Eventide cemetery with Major J. Sutherland of the Salvation Army officiating.

Protest against the scheduled license of anglers in national parks has been made by George A. Kelie, president of the Northern Alberta Fish and Game League. In a letter to Hon. T. A. Cree, dominion minister of mines and resources, the league president also requested the establishment of a 3,000,000 lb. hatchery at asper, and rearing ponds of 500,000 fingerling capacity. While ponds and streams are so plentiful in Alberta that there is no justification for licensing tourists.

Alberta still leads all other in the reduction of unemployed. For the period January 1 to May 31, the situation here showed a 11.9 per cent decrease, as compared with 7.50 per cent in Ontario and 5.27 in British Columbia. In other provinces, unemployment figures rose, Saskatchewan topping the mark with a 42.85 per cent increase. Figures for all Canada showed 2.07 decrease.

THE EDMONTON EXHIBITION

Edmonton's 61st annual summer fair, July 17th to 22nd, is characterized as the Royal Visit exhibition. The grounds and buildings will feature Royal Visit decorations; crown, coats of arms, pennants by the thousands; miles of bunting and flags—every place they can be effectively be used—the mammoth arches erected at the CNR depot and the parliament buildings all will serve to remind patrons of the historic visit to Edmonton last month of the King and Queen. Six days of excellent running races, the finest midway shows in America, fireworks Tuesday and Friday nights, a tropical show including some 40,000 specimens of insect life some of which are gorgeous beauties, and some which would be most unpleasant and dangerous to meet if alive, exhibit buildings crammed to the doors and other events will provide entertainment for all tastes.
